## **Green Power Baby Shower at the Seattle Sheraton**

Bellevue, WA March 13, 2008

*Essco Safety Check is participating in a Green Power Baby Shower Expo at the Seattle Sheraton.*

*On Saturday May 3<sup>rd</sup>, Essco Safety Check will be available at the Seattle Sheraton to answer questions about our services and provide FREE toy and consumer product testing to the public. The Green Power Baby Shower is an expo where exhibitors demonstrate and distribute their organic and Green products and services for babies, new mothers, pregnant women and children.*

Essco Safety Check has a goal to help people know what is in their environment. We use laboratory-grade, handheld, X-ray Fluorescence (XRF) analyzers to detect the presence of a variety of toxic substances within your home or business. We do testing to check for potential toxins such as lead, cadmium, arsenic, mercury, chlorine, PVC and many other elements.

*With increasing frequency, toys and other consumer products have been recalled due to high levels of lead. As consumers become more knowledgeable of the prevalence and dangers of lead, they are also becoming more aware of the potentially adverse health effects of other toxins such as mercury, arsenic, cadmium, and chlorine.*

If you would like toys or any consumer products tested for potential toxic element, or if you have any questions about our in-home inspection service, please join us at the Seattle Sheraton on Saturday, May 3<sup>rd</sup> between 10 AM and 4 PM.
