## **Seattle Baby Time Expo @ Quest Field Event Center**

Bellevue, WA May 13<sup>th</sup>, 2008

*Essco Safety Check is participating in a Baby Time Expo held at Quest Field Event Center.*

*On Saturday & Sunday June 28<sup>th</sup> & 29<sup>th</sup> between 10AM and 5PM, Essco Safety Check will be available at the Baby Time Expo at Quest Field Event Center to answer questions about our services and provide FREE toy and consumer product testing to the public. The Baby Time Expo is an exhibit where you will find hundreds of products and services for babies, new mothers, pregnant women and children, everything that your baby may need from advice on nutrition, safety, sleeping and more.*

Essco Safety Check has a goal to help people and businesses “know what is in their environment.” We use laboratory-grade, handheld, X-ray Fluorescence (XRF) analyzers to detect the presence of a variety of toxic substances within your home or business. We do testing to check for potential toxins such as lead, cadmium, arsenic, mercury, chlorine, PVC and many other elements.

*With increasing frequency, toys and other consumer products have been recalled due to high levels of lead. As consumers become more knowledgeable of the prevalence and dangers of lead, they are also becoming more aware of the potentially adverse health effects of other toxins such as mercury, arsenic, cadmium, and chlorine.*

If you would like toys or any consumer products tested for potential toxic elements, or if you have any questions about our in-home inspection service, commercial or industrial inspection services, please join us at Quest Field Event Center and the Baby Time Expo between 10 AM and 5 PM on both Saturday June 28<sup>th</sup> and Sunday June 29<sup>th</sup>
