Green Edmond's Festival

Essco Safety Check is participating in the Green Edmond's Festival at Frances Anderson Center Playfield, 700 Main Street, Edmonds, sponsored by GreenForGood.com.

On Saturday September 13th between 11AM and 6PM, Essco Safety Check will be available at the Green Edmonds Festival, in Edmonds WA to answer questions about our services and provide FREE toy and consumer product testing to the public. The Festival will feature eco-friendly products, services and information aimed at helping people live a greener life.

Admission is free, there will be booths offering green/organic/sustainable products, services and food/drink. There will be a children's craft area featuring recycled materials and a solar-powered stage with live music from classic band the Murphtones, and informative speakers on topics ranging from greener home remodeling to cooking.

Essco Safety Check has a goal to help people and businesses "know what is in their environment." We use laboratory-grade, handheld, X-ray Fluorescence (XRF) analyzers to detect the presence of a variety of toxic substances within your home or business. We do testing to check for potential toxins such as lead, cadmium, arsenic, mercury, chlorine, PVC and many other elements.

If you would like toys or any consumer products tested for potential toxic elements, or if you have any questions about our in-home inspection service, commercial or industrial inspection services, please join us at the Green Edmond's Festival at Frances Anderson Center Playfield, 700 Main Street, Edmonds, WA, Saturday September 13th from 11AM to 6PM.
