**Free Toy and Consumer Product Testing
At the Tacoma-Pierce County Livable Communities Fair
May 17th, 2008 9 AM to 4PM – Tacoma Dome Exhibition Hall**

Bellevue, WA May 15th, 2008

Essco Safety Check is participating in the Tacoma-Pierce County Livable Communities Fair, hosted by the Tacoma Pierce County Health Department. We will be sharing a booth with the Washington Toxics Coalition.

On Saturday May 17th, between 9AM and Noon, Essco Safety Check will be available at the Tacoma-Pierce County Livable Communities Fair; the Fair is located at the Tacoma Dome Exhibition Hall and sponsored by the Tacoma Pierce County Health Department. We will be located at booth 25-26 and are offering the public FREE toy and consumer product testing to the public.

Essco Safety Check has a goal to help people and businesses “know what is in their environment.” We use laboratory-grade, handheld, X-ray Fluorescence (XRF) analyzers to detect the presence of a variety of toxic substances within your home or business. We do testing to check for potential toxins such as lead, cadmium, arsenic, mercury, chlorine, PVC and many other elements.

With increasing frequency, toys and other consumer products have been recalled due to high levels of lead. As consumers become more knowledgeable of the prevalence and dangers of lead, they are also becoming more aware of the potentially adverse health effects of other toxins such as mercury, arsenic, cadmium, and chlorine.

If you would like toys or any consumer products tested for potential toxic elements, or if you have any questions about our in-home inspection service, commercial or industrial inspection services, please join us at the Tacoma Dome, on Saturday, May 17th.
